

ICEHOUSE

HACKENSACK, NJ

Skating Academy

ABOUT US

Under the direction of 4X Olympic coach and Ice House Skating Director Craig Maurizi Skating Academy is designed to teach the fundamental and advanced skills of figure skating to interested, motivated and advanced skaters. Each skater will have off ice training classes that include strength and conditioning, stretching, and when appropriate jump technique. This group training environment not only alleviates high training costs but is proven to motivate young athletes while offering an added benefit of socialization in what would normally be an individualized activity.
